PROFILE

Power Platform and CRM developer with over three years of experience building business applications and automations across the Microsoft ecosystem. Skilled in Power Apps, Power Automate, Dataverse and Power Fx, with hands-on experience delivering end-to-end solutions and working on complex Microsoft Dynamics 365 CRM systems spanning Sales, Field Service and Customer Service. Comfortable working with APIs and a basic working knowledge of JavaScript, with an ability to turn business requirements into working, maintainable solutions.

EXPERIENCE

Software Developer

Navet AB · Full-time

Apr 2025 – Present | Stockholm, Sweden

- Full-time consultant for a security company, developing and maintaining their large, complex Microsoft Dynamics 365 CRM system spanning the Sales, Field Service and Customer Service modules.
- Work across the full Power Platform and CRM stack, delivering and supporting solutions used throughout the client's business operations.
- Key skills: Power Apps, Power Automate, Dataverse, Power Fx, JavaScript, APIs.

Software Developer

Konica Minolta Nordics · Full-time

Aug 2022 – Jul 2024 | Malmö, Sweden

- Built a full end-to-end Power Platform solution for a client that calibrates measuring instruments: a Power App that calculates calibration results, backed by Power Automate.
- Designed the automation to capture calibration data, generate a PDF certificate and store it in SharePoint, then surface it back within the same Power App where it can be viewed and sent to the customer.
- Key skills: Power Apps, Power Automate, Dataverse, Power Fx, JavaScript, APIs.
